58 CHEV PARTS SPECIALISTS

AUTO CITY CLASSIC, INC.

Thanks for requesting our parts catalog. It is filled with many new parts as well as our usual supply of quality used parts for your 58 Chevy. We, at Auto City Classic, started collecting 58 Chevrolet parts in the late 1970's. At that time there was very little interest in the 58 Chevy. All the attention was focused on the 55, 56 and 57 Chevys. Through our interest, we have become the largest manufacturer of 1958 Chevrolet parts exclusively. Auto City Classic has done 20 frame off restorations and with this experience and through trial and error, we have gained the knowledge to know what is needed to restore a 58 Chev. Our reproduction parts are exact and correct and have been tried and tested by us and many satisfied customers. With over 100 58 Chev parts cars, we also have one of the largest selections of used parts available. Whether it's a bolt or a complete interior, we can supply your 58 Chevy with quality, dependable parts. We are constantly introducing new products, so if you don't see what you need or if you have any questions regarding what is correct, give us a call. We will be glad to help. We hope you will be pleased with our products.

RADIOS

NEW!! "WONDER BAR" RADIO NOS WASN'T THIS GOOD!

This new reproduction has the look of the original Wonder Bar radio with the performance you get with new technology. Great attention has been paid to every detail to make this visually the same as the original. The dial fonts are the same and there is no digital display. The wonder bar seeks up the dial to the top and then rapidly returns to the bottom to start over just like the original. The push buttons and tuning knobs work just like they were originally designed.

We have installed this radio in our cars and it sounds and works GREAT!
